

Regression of "red" data  
to t-zero ( $t_0$ )

$t_0$  here or  $t_0$  here or  $t_0$  here?

Gas inlet into  
mass spectrometer

Approximate time that  
MassSpec would set t-zero  
(i.e., 2/3 of equilibration time)

Commonly accepted "equili-  
bration time" (i.e., intensity  
begins to decrease)
